

2016 CPT CODE CHANGES

Effective January 1, 2016, the American Medical Association (AMA) will introduce numerous changes to current procedural terminology (CPT) codes that include 11 deleted codes, 28 new codes and 50 revised codes. To ensure you are properly reimbursed for laboratory services rendered, PathGroup recommends you implement these changes (along with any other applicable CPT code changes) into your practice's billing and coding structure by January 1, 2016.

To access a comprehensive list of 2016 CPT code changes for laboratory services, go to:

- **www.pathgroup.com**
- Go to **Resources > Physician Resources**
- Select **2016 CPT Code Changes**
