# Update

**From Your Laboratory Service Provider, PathGroup Labs**

## Alert Value Test Update

Samuel Smith, MD Lab Director / Jeff Johnson, Clinical Operations Manager

PathGroup Labs has performed the annual review of analytes with defined critical limits. As a result, PathGroup will no longer report the analytes listed below with critical flags.

The reference interval for these analytes has not changed and results that fall outside these limits will be flagged as **H** (High) or **L** (Low) as indicated.

| Alert Value Assays to be Removed | |
|---|---|
| **Albumin** | **FT4** |
| **Alkaline Phosphatase** | **GFR** |
| **ALT** | **GGT** |
| **Amylase** | **Lactic Acid** |
| **AST** | **LDH** |
| **Bilirubin, Direct** | **Lipase** |
| **Bilirubin** | **Ammonia** |
| **Chloride** | **Phosphorus** |
| **Cortisol, A.M.** | **Urine Creatinine Clearance testing** |
| **Alcohol** | **Urine Microalbumin testing** |
| **Fasting Blood Glucose** | **Uric Acid** |
| **Ferritin** | **Urine Urea Nitrogen testing** |
| **Folate** | **Vancomycin (Peak, Trough, and Random)** |
